Green means go.

"Whoever recommended putting the greens in OJ, thank you so much! I'm going to be honest, I've always struggled getting the greens in my family. I enjoy it in our powerhouse smoothie with all the super fruits, daily build, Mila and collagen, but this is easy and the kids will drink it! When you look at the ingredients of this product...holy moly!! It's stacked!"

Numbers don't lie.

Derek had his blood work done and with no other changes to his diet/exercise, his total cholesterol is down by 16 points, bad cholesterol down by 13 points, weight down 5 pounds and triglycerides down by 16 points. His coach encouraged him to lower carbs and continue what he was doing. She said just his intake of the amount of greens daily in his shake would continue to improve his liver function overall and his whole system would work better.
